SUMMARY

Full-Stack Web Developer with a Master's degree in Computer Science and hands-on experience building production-grade web applications and RESTful APIs across FinTech and enterprise domains. Proficient in Laravel, PHP, React.js, ASP.NET Core (C#), Node.js, and Express.js. Developed scalable backend systems, secure authentication solutions, and AI-powered applications integrating Claude AI and Gemini APIs. Skilled in MySQL, SQL Server, MongoDB, Git, Postman, OOP, MVC, SOLID principles, and modern software development practices. Passionate about delivering secure, high-performance, and user-focused solutions.

EXPERIENCE

Software Engineering Intern |XpertBot Academy (Remote)

Backend Developer

Dec 2025 – Jun 2026

- Developed production-grade REST APIs using Laravel 11 and PHP 8.2 with Sanctum authentication, rate limiting, and role-based access control
- Designed and optimized MySQL database schemas with 18+ relational tables, FK constraints, and performance indexes for FinTech domain
- Implemented atomic database transactions with pessimistic locking to ensure data integrity across concurrent financial operations
- Built and documented 25+ API endpoints using Postman with automated token management and Git-based version control

Software Development Intern | IDS Fintech (Remote)

Full-Stack Developer | Academic Project

February 2026 –April 2026

- Architected and deployed a team workload management platform serving multiple user roles with granular permission control
- Reduced task assignment time by implementing AI-powered assignee suggestion based on real-time workload analysis
- Built secure authentication system with JWT tokens and role-based authorization protecting 15+ API endpoints
- Delivered automated AI Daily Standup reports reducing manual team reporting effort by 100%
- Achieved fully responsive design supporting mobile, tablet ,and desktop devices using MUI Grid system and breakpoints

EDUCATION

Master of Science in Computer Science

Lebanese University, Tripoli, Lebanon

November 2024 - July 2025

Educational equivalency granted by the Faculty of Sciences – Lebanese University.

Bachelor of Science in Computer Science

Lebanese University, Tripoli, Lebanon

October 2021 - August 2024

TECHNICAL SKILLS

Programming Languages: HTML5, CSS3, JavaScript, PHP, Java, C, C#, ASP.NET,SQL ,MUI.

Frameworks & Libraries: React.js, Bootstrap, Laravel, .NET Framework, Node.js, Express.js, Spring boot, ASP.NET Core,Filament v3,Laravel Sanctum

Databases: MySQL, Firebase, MongoDB, SQL Server, Database Design,Schema Normalization,Query Optimization,Database Indexing.

API Development: RESTful APIs, RESTful Web Services, API Design, API Integration, Async Programming, JSON/XML, HTTP/HTTPS Protocols, CRUD Operations, Postman API Testing, Web API Development, API Security, Rate Limiting, Bearer Token Authentication,

Development Tools: Git, GitHub, Postman, Visual Studio Code, Android Studio, Figma.

Productivity Tools: Microsoft Excel, Microsoft Word, Microsoft PowerPoint.

Software Development: Asynchronous Programming, Object-Oriented Programming (OOP), MVC Architecture, CRUD Operations, Recharts, Service Layer Pattern, SOLID Principles, DB Transactions,Pessimistic Locking, Audit Logging, FinTech Development,

PROJECTS

BabiPay — FinTech REST API & Dashboard

Dec 2025 – Jun 2026

Tech Stack: Laravel 11, PHP 8.2, MySQL, Sanctum, Filament v3, Chart.js, Git

- Built production-grade FinTech REST API supporting multi-currency wallets, international transfers, and real-time currency exchange
- Developed 18-table normalized schema with decimal(18,8) monetary precision, atomic DB transactions, and lockForUpdate() preventing concurrent double-spend race conditions
- Architected Service Layer (WalletService, TransferService, ExchangeService) with 9 Form Request validation classes following SOLID principles
- Secured API with Sanctum bearer-token auth, rate limiting, KYC admin-review flow, audit logging, and role-gated Filament v3 admin panel
- Delivered Analytics Dashboard with Chart.js featuring spending trend analysis, currency distribution, and AI-powered financial insights

WorkloadTracker — Full-Stack Team Management System

Mar 2026 - Apr 2026

Tech Stack: React, TypeScript, C# .NET 8, SQL Server, MUI, Recharts

- Built a full-stack web application for managing team workloads with role-based access control (Admin, Team Leader, Member)
- Integrated Claude AI & Gemini API for intelligent task generation, smart assignee suggestions, and automated daily standup reports
- Developed RESTful API with JWT authentication, Entity Framework Core, and SQL Server database with 10+ relational tables
- Implemented real-time notifications system, member-to-member messaging, and PDF report export using jsPDF
- Developed responsive UI with Material UI featuring interactive dashboards, Recharts data visualizations, and Kanban-style views
- Applied weight-based workload algorithm: $\text{Weight} = \text{EffortHours} \times \text{Complexity} \times \text{Priority multipliers}$

E-commerce Platform | Full-Stack Web Application

April 2024 - June 2024

- Developed Shein-inspired e-commerce platform supporting 50+ products and 100+ concurrent users using React.js, PHP, and MySQL
- Engineered responsive interfaces with React.js reducing bounce rate by 30% and cart abandonment by 20%
- Created RESTful APIs for product management and user authentication, improving data processing efficiency by 40%
- Built admin dashboard with full CRUD operations handling 200+ daily transactions for inventory and order management
- Optimized front-end performance with lazy loading and code splitting, reducing page load time by 25%

Basketball Tournament Management System | Web Application

January 2024 - February 2024

- Built full-stack basketball tournament management system (PHP, MySQL, CSS3)
- Implemented session-based data persistence and duplicate entry validation
- Created responsive UI with modern design patterns and smooth animations
- Developed CRUD operations for teams, matches, and statistics tracking

CERTIFICATES

Certificate of Completion — Laravel & Git XpertBot Academy | June 2026

Software Development Internship Certificate – IDS Fintech | June 2026

React: Creating and Hosting a Full-Stack Site - LinkedIn Learning | December 2024

Data Analytics with Power BI - Khwarizmi | October 2024

PHP & MySQL Development - Korsatcode | March 2023

Fundamentals of Web Development – GDSC | March 2023

Fundamentals of Digital Marketing - Google | December 2022

LANGUAGES

Arabic: Native

English and French: Professional
